Description

With RTK-SSR Receiver with PointPerfect (Internet or L-Band), you will be able to enjoy plug-and-play centimeter accuracy in Europe and continental North America from any area with cellphone coverage or satellite view.
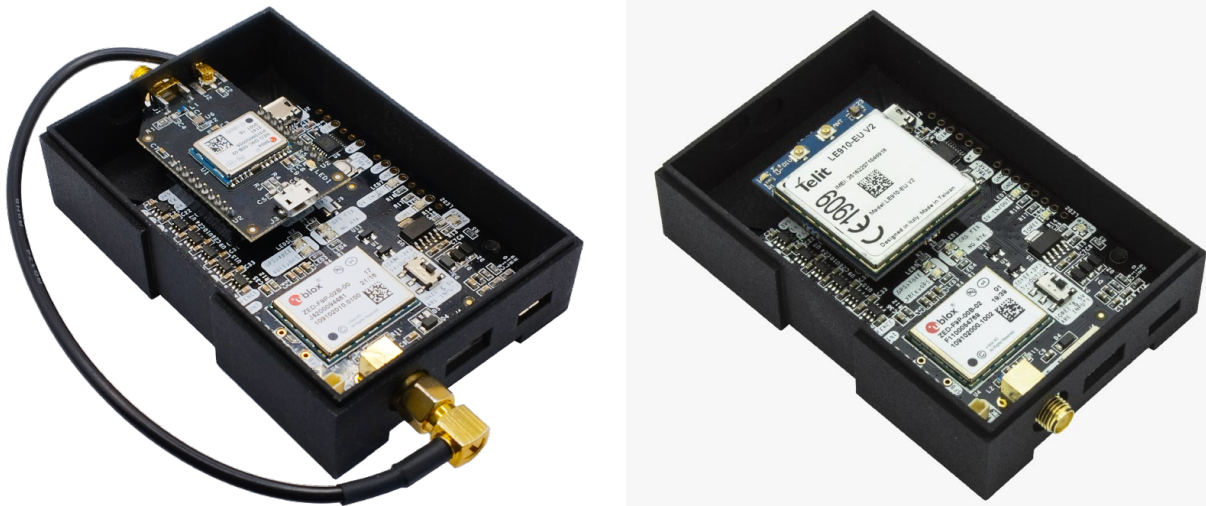

Thanks to u-blox F9 RTK engine, Thingstream PointPerfect augmentation service and ArduSimple integration and pre-configuration, just power up, wait 1-2 minutes, and enjoy centimeter precision. If you use L-band option, please send us an email at info@ardusimple.com when you receive the package and we will activate the service.

Good to know:
- The price includes the hardware, 1 year unlimited PointPerfect augmentation service.
- Internet version will activate automatically during the first power up or 15 days after delivery, whichever happens first. If you use L-band option, please send us an email at info@ardusimple.com when you receive the package and we will activate the service for you.
- For the L-Band version, you will need to update the key every 28 to 56 days, you can find instructions here, the Internet version updates automatically the keys.
- You can use the device without limit for a full calendar year: 365 days @ 24h/day.
- When the date of the license period is close to expire, you will have the possibility to renew it at 365€/year.
- u-blox PointPerfect augmentation service coverage in all territory marked in orange and up to 20km from the coastline:
